

## For general applications and for mildly corrosive chemicals

- Monobloc for rapid installation
- In permanent contact with the shaft with avoid all movement
- Interchangeable compatible counterfaces (Type IN)
- Difficult to clog
- **Temperature:** -40 °C to 180 °C (depending on material choice)
- **Pressure:** up to 26 bar (NBP) up to 30 bar (NBR)
- **Max Speed:** 20 m/s
- **Shaft size:** 10 to 70 mm

Performances shown above are minimum values for standard conditions of use; consult our technical experts for validation.
